ABOUT ME

I'm a kind of positive person who enjoys to cooperate with other people who I can learn a lot from. I really like to give my own suggestions about projects and advise in solving problems. I could say that Front-end became my hobby and that's why I'm looking forward to start my job.

COURSES

Kodilla - Web Developer Course

2018-2019

-I finished Web Developer course by "Kodilla" lasting from October 2018 to September 2019. The course consisted of 37 modules every one lasted a week. Every week I was talking with my mentor. During the course I did exercises and projects such as:

- company site - fully customizable company site: HTML, CSS, RWD,
- kanban board - lean method to manage and improve work across human systems: HTML, CSS, JS,
- rock paper scissors game - simple game with some extensions: HTML, CSS, JS,
- my personal site - representative page: HTML, CSS, JS, RWD,
- responsive SPA, MPA, ???????????
