

# HL

## ABOUT ME

I'm a kind of positive person who enjoys cooperating with other people who I can learn a lot from. I really like giving my own suggestions about projects and advising in solving problems. I could say that Front-end became my hobby and that's why I'm looking forward to starting my job.

## COURSES

**Kodilla - Web Developer Course**

2018-2019

-I finished Web Developer course by "Kodilla" lasting from October 2018 to June 2019. The course consisted of 37 modules each lasting a week. Every week I talked to my mentor. During the course I did exercises and projects such as:

- company site - fully customizable company site: HTML, CSS, RWD,
- kanban board - lean method to manage and improve work across human systems: HTML, CSS, JS,
- rock paper scissors game - simple game with some extensions: HTML, CSS, JS,
- my personal site - representative page: HTML, CSS, JS, RWD,
- responsive SPA, MPA,

**Front-end zaawansowany - Samuraj Programowania**

2019
